**Subject:** Re: Exide Meeting with DTSC tomorrow

Let's meet either at 1 pm or 3:30 pm. I can cut into those meetings.

Enrique – Christine said you have back to back meetings until 5 and I leave at 4:30. We can talk tonight or via email.

Steve and I are headed up to Sacramento tomorrow to check in with DTSC about their progress on Exide. I expect Zoe Bayar and Ana Mascarena to attend. Deldi may join us along with George Randell, a RCRA inspector that has worked on the site.

It will be an informal meeting. I suggested to Zoe and Ana that we review DTSC's current organizational structure, management objectives, data management plan and major milestones over the next 6 months.

This meeting is in preparation for an 11 August meeting in LA, being hosted by DTSC and including local city officials, LA County DPH. I am planning to attend that meeting but Steve will be in DC, so I am arranging for another OSC, maybe Craig or Jason to come to that meeting.

If there are messages or points you would like Steve and I to cover tomorrow, let me know. I am planning to give Zoe and Ana copies of our IMH, as a reference tool for them to use as they develop their structure. Our main message will be that we are available to help guide their process and suggest ways to actively engage the community that might make their job easier. But we don't want to be perceived as getting in the way or second guessing their decisions.

The other thing I wanted to discuss, and we have a bit more time for this, is a meeting I would like to arrange with Angelo Bellomo, either on 8/11 or the day before. I would like to have a frank, closed door discussion with him on the 'rules of engagement' when EPA and DPH are working together on a site, what our expectation is of partners in Unified Command, etc. So I wanted to get your input on that.

I will be in Sac tomorrow, and on leave Friday. Harry is acting if anything comes up.
